Invest in your future

We know how much of an investment furniture and resources are in your centre. Often by the time you are ready to look into the interior set-up you have already had a fairly substantial outlay in getting to that point.

We can tailor a payment plan to suit your needs.

Want to order but waiting on funds?

We have teamed up with a reputable finance company who have a very simple process to allow you to pay off in instalments over your chosen period of time (up to 12 months).

Is your habit getting in the way?

Sticking to what you know can be good... but it doesn't give you the opportunity to **seek out better quality, pricing or designs.**

Hebe understands that change can be a hurdle and finding trusted suppliers even harder. We want to challenge you to be bold and brave and check out our goods.

We can send you samples to **try before you buy.**

What makes Hebe better?

(The devil is in the detail)

Our products are made to last using the highest quality materials. From the sustainable natural wood down to the stainless steel fittings, our furniture is stronger and wears better than other popular brands.

Unlike laminates, wood can be re-varnished or re-oiled to keep surfaces looking great for years to come.

We are still, and always will be, proudly making products in NZ by our local team. No big corporation, just a simple down to earth Kiwi business with a big heart.

We deliver quality, always. Our customers are very important to us, we look after you without keeping you waiting.
